

## **Saxon's New *Algebra 1, Geometry* and *Algebra 2* to Launch at NCTM 2008**

*New programs employ Saxon's research-based, classroom-proven approach to mathematics instruction.*

**BOSTON** — March 31, 2008 — Saxon<sup>®</sup>, an imprint of HMH Supplemental Publishers, today announced plans to launch new editions of its popular *Algebra 1* and *Algebra 2* mathematics programs, and an all-new *Geometry* program, at the 2008 National Council of Teachers of Mathematics Annual Meeting and Exposition, to be held April 9–12 in Salt Lake City, Utah.

Developed for students in grades 8–12, *Algebra 1, Geometry* and *Algebra 2* have been updated and revised to meet today's rigorous standards of achievement. Created using a powerful research-based pedagogy, the programs employ carefully-sequenced, incremental instruction in which content and practice opportunities are distributed throughout the year, allowing students to thoroughly master each concept.

“We are all very excited about unveiling our new secondary math programs at the NCTM conference this year,” said Susan Rogalski, editorial director, Math and Science, HMH Supplemental Publishers. “Based on proven instructional techniques pairing incremental instruction with distributed practice, these programs allow all students to experience success in *Algebra 1, Geometry* and *Algebra 2*.”

The programs feature a number of new components, including a Teacher's Edition with support and options for differentiated instruction; Reteaching Masters; Course Assessments; Standardized Test Masters; Instructional Presentations and TI Activities CD; Resource and Planner CD, Challenge and Enrichment Masters; and *Adaptations*, a parallel support program with modifications for special populations.

### **About Saxon**

Saxon<sup>®</sup>, founded in 1981, is an imprint of HMH Supplemental Publishers. Saxon's unique pedagogical approach, based on instruction, practice and assessment distributed across the grade level, incorporates over 20 years of research and classroom experience. The same successful, classroom-tested approach used in *Saxon Math*<sup>™</sup>, the most thoroughly researched skills-based mathematics program for grades K–12, has been applied to *Saxon Algebra 1, Geometry* and *Algebra 2*. To learn more, contact 800-531-5015 or visit the company's Web site at [www.SaxonMath.com](http://www.SaxonMath.com).

### **About Houghton Mifflin Harcourt**

Boston-based Houghton Mifflin Harcourt Publishing Company is a global education company with approximately \$2.5 billion in combined revenue. The Company publishes a comprehensive set of best-in-class pre-K–12 educational solutions, ranging from research-based textbook programs to instructional technology to standards-based assessments for students and educators. The Company

also publishes an extensive line of reference works and award-winning literature for adults and young readers. With origins dating back to 1832, Houghton Mifflin Harcourt combines its tradition of excellence with a commitment to innovation.
